

Armenian College of Nursing & Health Sciences

Admissions Policies & Procedures

Admission Policy

Admission to the Armenian College of Nursing & Health Sciences is selective and competitive. Applicants must meet all published prerequisite requirements and submit a complete application. Admission decisions are based on academic performance, prerequisite completion, entrance assessments (if applicable), and available program capacity. Meeting minimum requirements does not guarantee admission.

Prerequisite Waiver & Transfer Credit Policy

Applicants who have completed equivalent coursework at an accredited institution may request a prerequisite waiver. Requests are evaluated on a case-by-case basis and must be supported by official transcripts and course descriptions. Transfer credit may be awarded when coursework is equivalent in scope and rigor, a minimum grade of C (70%) was earned, and alignment with program outcomes is demonstrated.

International Student Admissions

International applicants are welcome and must meet all academic and prerequisite requirements. Applicants must submit officially translated academic transcripts in English and demonstrate English language proficiency. International credentials are evaluated for equivalency. Admission does not guarantee licensure eligibility in any jurisdiction.
