

Armenian College of Nursing & Health Sciences

Curriculum-to-NCLEX-RN Mapping Tables Associate Degree in Nursing (ADN)

Table 1. Course-to-NCLEX Client Needs Mapping

Course	NCLEX Client Needs Addressed
NURS 101 – Fundamentals of Nursing	Safety & Infection Control; Basic Care & Comfort; Reduction of Risk Potential
NURS 102 – Medical-Surgical Nursing I	Physiological Adaptation; Reduction of Risk Potential; Management of Care
NURS 103 – Pharmacology	Pharmacological & Parenteral Therapies; Safety & Infection Control
NURS 104 – Medical-Surgical Nursing II	Physiological Adaptation; Management of Care
NURS 105 – Maternal & Newborn Nursing	Health Promotion & Maintenance
NURS 106 – Pediatric Nursing	Health Promotion & Maintenance; Safety & Infection Control
NURS 107 – Mental Health Nursing	Psychosocial Integrity
NURS 108 – Leadership & NCLEX Review	Management of Care; All Client Needs Categories

Table 2. Program Learning Outcomes to NCLEX Alignment

Program Learning Outcome	NCLEX-RN Alignment
Safe medication administration	Pharmacological & Parenteral Therapies
Clinical judgment and prioritization	Management of Care
Infection prevention and patient safety	Safety & Infection Control
Holistic patient-centered care	Physiological & Psychosocial Integrity
Professional communication	Management of Care
Ethical and legal nursing practice	Management of Care

Table 3. Clinical & Skills Alignment with NCLEX

Clinical / Skills Component	NCLEX Category
Vital signs, hygiene, mobility	Basic Care & Comfort
IV therapy, medication administration	Pharmacological & Parenteral Therapies
Foley catheterization	Reduction of Risk Potential
Airway management	Physiological Adaptation
Code Blue / emergency response	Physiological Adaptation
Mental health therapeutic communication	Psychosocial Integrity
Maternal-child clinical care	Health Promotion & Maintenance
Pediatric growth & development	Health Promotion & Maintenance

Table 4. Assessment Methods Mapped to NCLEX

Assessment Method	NCLEX Skill Area
NCLEX-style unit exams	All Client Needs Categories
OSCE / simulation scenarios	Clinical judgment & prioritization
Medication calculation exams	Pharmacological & Parenteral Therapies
Clinical performance evaluations	Management of Care
Comprehensive NCLEX predictor exam	Overall readiness

Licensure Statement

Alignment of curriculum with the NCLEX-RN test plan supports graduate readiness for licensure examination. Eligibility for licensure is determined by the applicable nursing regulatory authority. Completion of the program does not guarantee licensure.
